

# Branch Hike 2026:

## A Scout Space Odyssey

Far beyond the edge of the known galaxy, a crew of devoted Scout Leaders are in great danger. Mission Control has lost contact with the satellite ports needed to guide them safely back to Earth, and supplies at base camp are running dangerously low. We urgently seek patrols of brave Scouts to navigate the alien terrain and locate the missing satellite ports. Along the way there will be cosmic challenges, dangerous asteroid fields, and seriously silly space jokes. Will your patrol dare to explore the unknown and save the Scout Leaders?
