# A short word from the President, Chief Commissioner and Acting CEO

## What is good about Scouting?

This is a very interesting question for us to reflect upon as dedicated and committed members of the movement, the first things that may come to mind may be the joy on the faces of the young people at your last camp, or that feeling you get when you assisted a young person in achieving in an area of growth or overcome an obstacle.

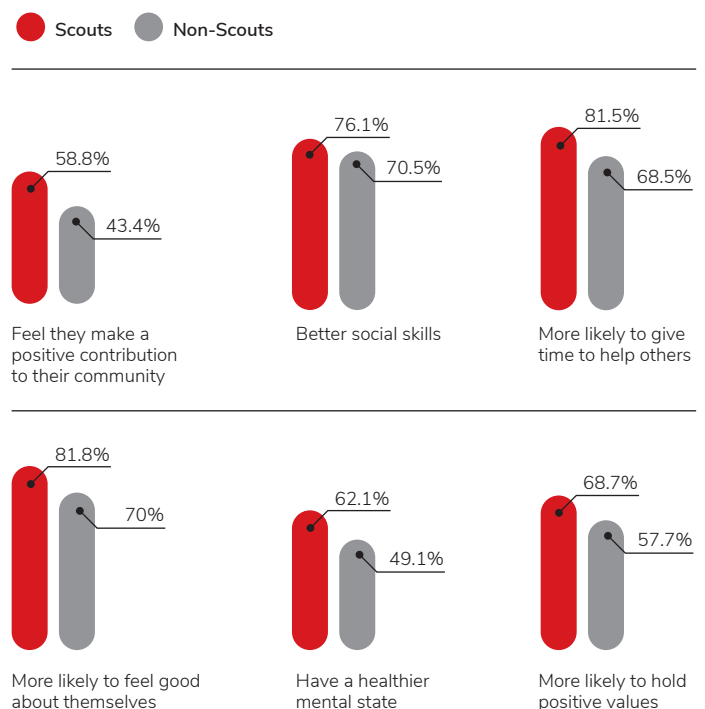

At the heart of Scouting is a simple goal. We want to give young people the courage, positivity and resilience to keep going, even in the toughest times and to give youth every opportunity to excel in life. A recent study by Resilient Youth Australia found evidence that Scouting has a very positive impact on youth.

Resilience is to feel Connected, Protected and Respected which are all key factors for youth in their abilities to interact in our communities and grow as individuals. The study compared Scouts against non-Scouts in the same age groups over a number of differing categories.

The findings from the study are very supportive of Scouting and are important factors for youth, parents and the community when determining their involvement in Scouting.

### Resilience Study Findings

Diversity is at the foundation of our culture. Scouting has always attracted a diverse range of people to the movement and importantly Scouting has always been very accepting of different people from different cultures, backgrounds, social standing and views. The Attaqwa Scout Group which commenced in February 2021 is evidence of this commitment to diversity. The group has been established within the Muslim Community with Branch assistance with approximately 60 youth members and 11 adult registered members.

**As a Branch we also have other diverse cultural groups which all play an important role in our Scouting community.**

The environment is a very important issue for all of us, especially those looking into the future. Youth of today are very committed to both understanding the importance of looking after the environment as well as being proactive in creating a change and doing the right thing to protect the environment. Scouting has a number of credentials that support this belief and thinking which are not new to Scouting and have been part of our foundation since Lord Baden-Powell created the movement. Our Youth Program has a focus on the environment creating knowledge and experiences for Scouts to become more involved in environmental issues.

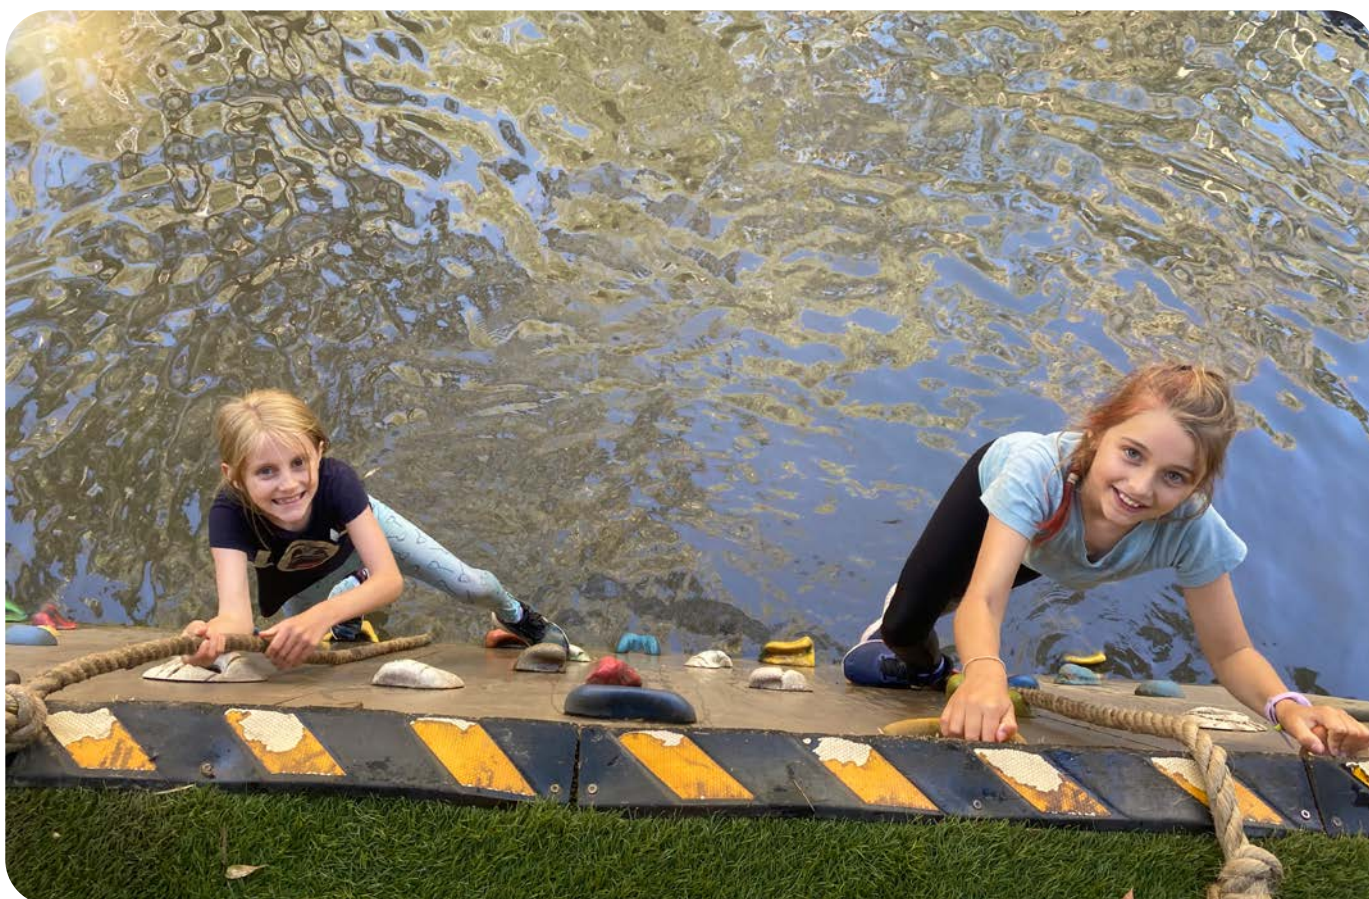

From a Branch perspective we also have a very strong focus on the environment through recycling. Scouts recycling currently manages 23% of recycling yards in the Adelaide metropolitan area and controls approximately 40% of recycling product across the 10 depot sites. Last year we diverted 30,000 tonnes of recyclable product from landfill.

These positives are important factors which provide the foundation for good Scouting, however without your intervention, drive and leadership nothing will happen, so the answer to the original question is “Our Leaders and members is what is good about Scouting”. We should never forget this fact.

As an organisation, we need to take every opportunity we can to sell, market and communicate the benefits of Scouting as this will grow our membership which will further enhance our community. We need to follow the lead of Leaders in our Branch, in particular the Chief Commissioner who is leading a Year of Engagement with leaders in Government, local communities, and other stakeholders to communicate the benefits of Scouting.

**You can assist in this communication in letting those that you interact with know about the benefits of Scouting to youth and the community, this will assist in the growth of our wonderful organisation.**

Mr Dan Ryan our previous Chief Executive Officer of 23 years has retired. Dan has taken our organisation from a cash turnover of \$4m in 1997 to a cash turnover of \$34m in 2020. He has also been the driver of enhancing some of our existing businesses and creating new business opportunities for us which has led to significant funds and resources flowing to Scouting. We all wish Dan and Sharon the very best in their retirement and hope that they have the opportunity to travel and enjoy the things that they both love.

# Financial Snapshot

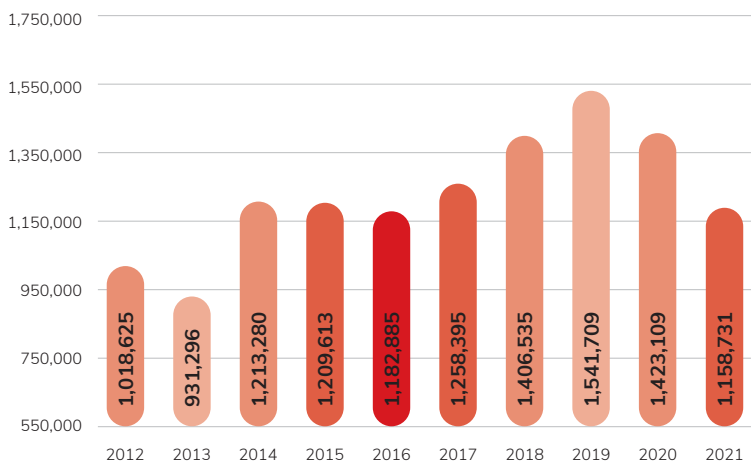

During 2020-2021 Branch assisted Scout Groups, Activity Sections and Activity Centres in obtaining funding and in-kind support from the Commonwealth, State and Local Governments, Community Groups and other supporting funding bodies.

These grants are much needed and well received to enable our young South Australians access to quality equipment, training and facilities in their local community that they may not otherwise have. This funding also enables Scouting in SA to continue developing future Leaders of our local, state and global communities to Excel in Life. On behalf of these young people, we thank the following entities that have provided over \$177,947 in funding to Scouting in SA this last year:

- ▶ Grants SA – COVID-19
- ▶ Department of Human Services
- ▶ Department of Industry, Innovation and Science
- ▶ Office for Recreation, Sport and Racing

# Corporate Governance

The overall responsibility for the corporate governance of Scouts Australia (SA Branch) rests with the Branch Executive Committee (BEC).

The BEC as a collective, ensures that the Association maintains systems and processes that are properly controlled and functioning effectively, and that management is complying with the policies and directives approved by the BEC. The BEC also conducts reviews of all Branch policies on a regular basis to ensure the ongoing conformance with State and Federal requirements. The [Board Charter](#) sets out the main principles adopted by Scouts Australia (SA Branch) and its Board.

The term Branch Executive Committee (BEC) and the Board are interchangeable within the Board Charter and have the same meaning. The term Branch means the Scout Association of Australia (SA Branch) Inc.

## The Role of Members

In accordance with the Branch Constitution, the voting members of the 'Branch' are responsible for voting on the election of the BEC at the Annual General Meeting. All BEC members, are subject to re-election by rotation at least every two years. The Annual General Meeting also provides members with the opportunity to receive the audited financial reports and select the auditors for the Association.

## The BEC

The BEC is responsible for the overall corporate governance of Scouts Australia (SA Branch), including its strategic direction, establishing goals, and monitoring the achievement of those goals. The key functions of the BEC include:

- Making a recommendation to the Chief Scout of the Branch (for subsequent appointment by the Chief Scout of Australia) for the appointment of the Branch Chief Commissioner per the Branch Constitution.
- Appointing a Chief Executive Officer and determining an appropriate remuneration package.
- Setting the 'vision' and Strategic Plan for the Association.
- Establishing the objectives (and reviewing performance against those objectives) for the Chief Commissioner of the Branch and the Chief Executive Officer.

- Preparing an annual budget, and monitoring results on a regular basis.
- Ensuring that risk management and governance systems are in place and operational throughout the organisation.
- Ensuring that Scouts Australia (SA Branch) complies with the law and conforms to the highest standards of financial, environmental and ethical behaviour.
- Overseeing the Association's finances through the CEO (including bequests, properties and all commercial activities).
- Leading a positive and inclusive culture which promotes diversity, empowerment, ethical behaviour and respect with a strong connection to the community throughout the movement.

BEC members spend an average of 24 days per annum on BEC matters, including review and preparation time, meetings and attendance at functions. The President and Branch Chief Commissioner commit significant additional time attending to special responsibilities including representing Scouts Australia (SA Branch) at functions and presentations.

BEC members are volunteers, receiving no fees for their commitment as BEC members.

### Accountability

The BEC and its individual members aim to keep all significant stakeholders informed of major developments and of the performance of Scouts Australia (SA Branch). Typical activities include:

- Providing reports as necessary to Government, private enterprise sponsors, and other funding stakeholders.
- Reporting as necessary to relevant regulators.
- Reviewing audit processes and reports.
- Communication at Annual General Meetings and via other forums, including media.
- Representing or reporting on Scouts Australia (SA Branch) activities and performance via the Annual Report.

### BEC & Management

The volunteer management of Scouts Australia (SA Branch) is delegated to the Branch Chief Commissioner.

The business management of Scouts Australia (SA Branch) is delegated to the Branch Chief Executive Officer.

#### The BEC is responsible for:

- Defining management responsibilities.
- Approving the corporate objectives for which the Chief Commissioner and Chief Executive Officer are responsible.
- Exercising due diligence to ensure the Scout Association of Australia (SA Branch), complies with its health and safety duties and responsibilities.

The BEC receives detailed briefings from the Branch Chief Commissioner and Chief Executive Officer on a regular basis during the year. The BEC also meets project managers and other staff and stakeholders as it requires. These actions inform BEC members of the Association's activities and assists them in assessing the organisation's performance against its strategic plan. The BEC evaluates its own performance against the strategic plan through internal and external survey annually.

The BEC does not directly involve itself in operational matters, leaving these to be managed by the Chief Commissioner and Chief Executive Officer. Similarly, the BEC does not involve itself in tasking volunteers or staff directly, preferring that the Chief Commissioner and Chief Executive Officer manage the Association's resources to achieve the strategic directions it sets.

### BEC Composition

The BEC consists of nine members including the President, one Vice President and the Chief Commissioner plus two Supporting Members, two Adult Leaders and two Young Adults. All members are elected by the voting members of Branch at the AGM for a two-year term. The BEC has the power to co-opt one additional voting member.

### BEC Meetings

The BEC meets regularly through the year with the Chief Executive Officer in attendance. Advisory Sub-Committees are formed when necessary by the BEC. These special purpose committees may co-opt external advice as required.

### Conflict of Interest

The BEC has in place a policy and procedure for the reporting of any matter which may give rise to a conflict between the interests of a BEC member and those of Scouts Australia (SA Branch). These arrangements are designed to ensure that the independence and integrity of the BEC is maintained. BEC members are regularly reminded to declare perceived conflicts at every BEC meeting and during any discussion where that conflict may become apparent.

Where a BEC member may be 'contracted' or commissioned by the Association on a fee for service basis, that fact is to be recorded in the Association's financial statements and made transparent to all members.

### Equal Opportunity

Scouts Australia (SA Branch) is an Equal Opportunity Organisation and this is reflected in its policies.

# Scouting and Community

SA Branch warmly congratulates all recipients and thanks them for their magnificent contributions to Scouting and the Community.
